Practical Updates in HCV Management and Treatment

What's new in the 2022 Hepatitis C Consensus Statement?

Date: Tuesday 28th February 2023

Time: 6:30pm – 8:00pm (AWST)

Venue: Online via Zoom (Zoom dial-in details will be provided after registration)

Primary Care Providers and other health care practitioners interested in furthering their knowledge in hepatitis C should attend this free latest treatment update.

The webinar will focus on *'What's new?'* in the *Australian recommendations for the management of hepatitis C virus infection: a consensus statement (2022)* prepared by GESA. Case study discussions will explore how these updates and recommendations can be applied in clinical practice.

Target Audience: General practitioners, other medical practitioners, nurse practitioners, nurses and other clinicians involved in the management of hepatitis C in Western Australia.

Presenter:

Prof. Wendy Cheng, Gastroenterologist and Hepatologist, Royal Perth Hospital.

Learning Outcomes:

- Describe the latest recommendations regarding screening and diagnosis of hepatitis C
- Discuss DAA treatment label changes and the shortened testing pathway to confirm cure
- Explain how to manage dose interruptions of varying lengths in people receiving DAA therapy
